

Moving FSCO shares into a brokerage account

If your shares are not currently in a brokerage account, the steps outlined below will guide you on the process.

Work with a financial representative to:

- Open a new brokerage account or identify an existing brokerage account into which to move your shares.
- Contact the brokerage firm to confirm the requirements to move shares via the Direct Registration System (DRS).
- In order to submit a DRS request, the brokerage firm will need the following information:
 - Fund: FS Credit Opportunities Corp.
 - CUSIP: 30290Y101
 - Ticker: FSCO
 - DST DTC Clearing ID LPA: 07889
 - Number of shares owned by the stockholder; information can be obtained by logging into the Investor Portal at www.fsinvestments.com (under “Resources” tab). Please note, only freely transferable shares will be eligible to be moved to your brokerage account.
- Follow the required instructions given by the brokerage firm—most firms require their proprietary transfer of assets form and the most recent customer statement. FSCO will mail a customer statement called a Direct Registration Transaction Advice (DRTA) at the time of listing. Your financial representative will also have access to a copy of your DRTA by logging into the Advisor Portal (DST Vision).

Please consult with your financial representative and/or brokerage firm for additional details regarding the firm’s share transfer instructions. Most firms should credit your shares to your designated brokerage account within 2–3 business days, post-listing.
